

MARS Reporting & Querying

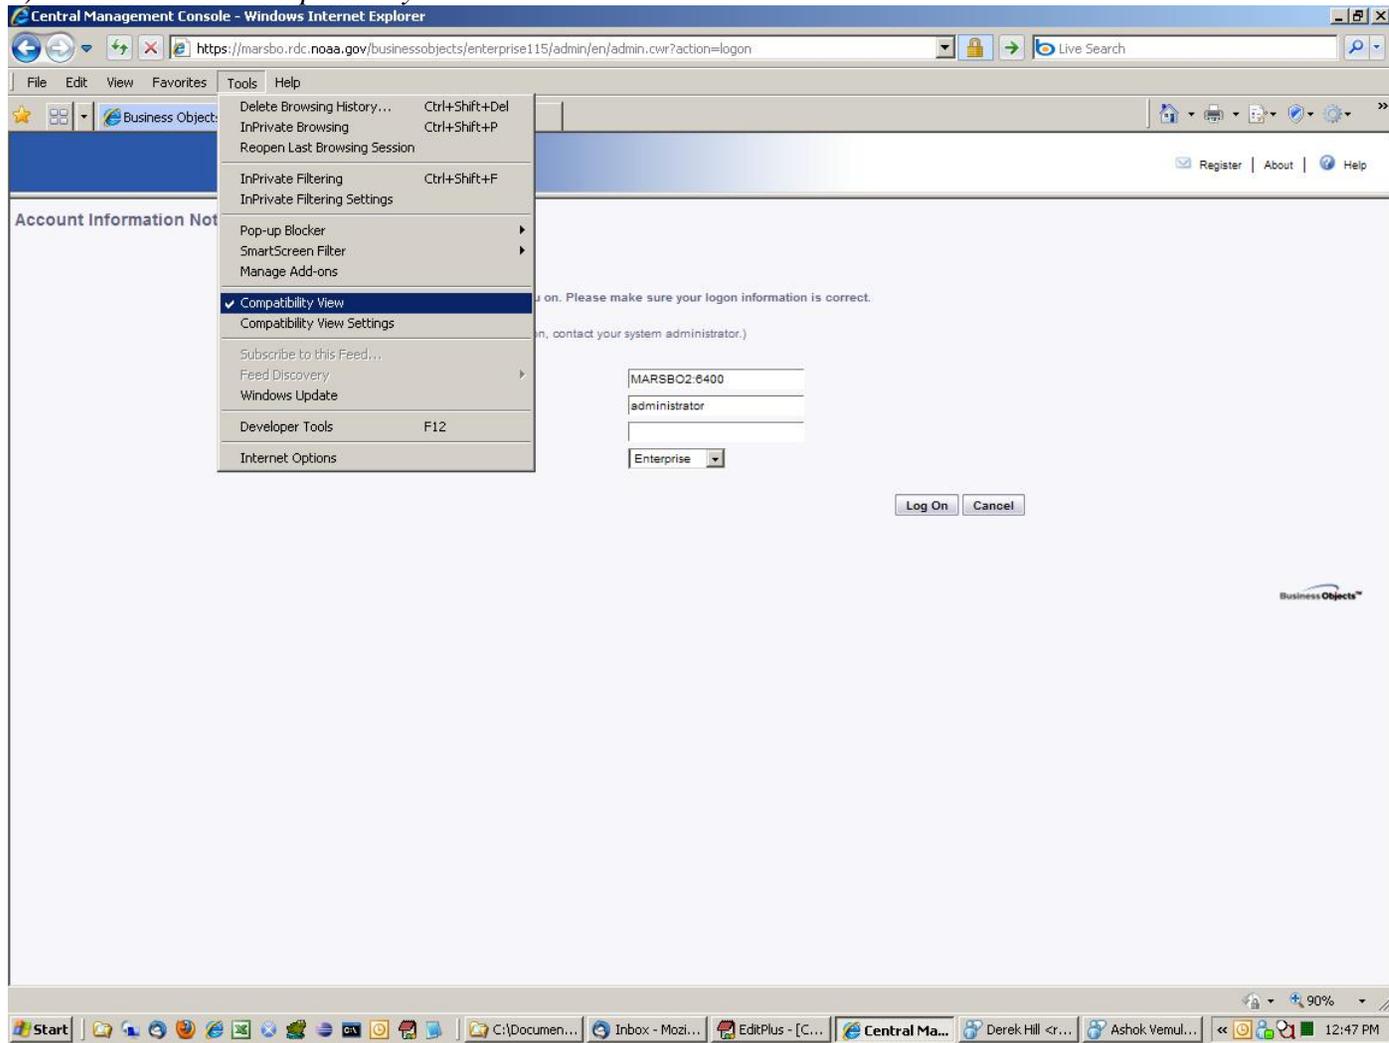

Configuring Internet Explorer 8 for Compatibility Mode

MARS Reporting & Querying is delivered via Business Objects. With the implementation of the new version of Business Objects 3.1 SP2 FP 2.1, IE 8 is now supported—but only in Compatibility Mode.

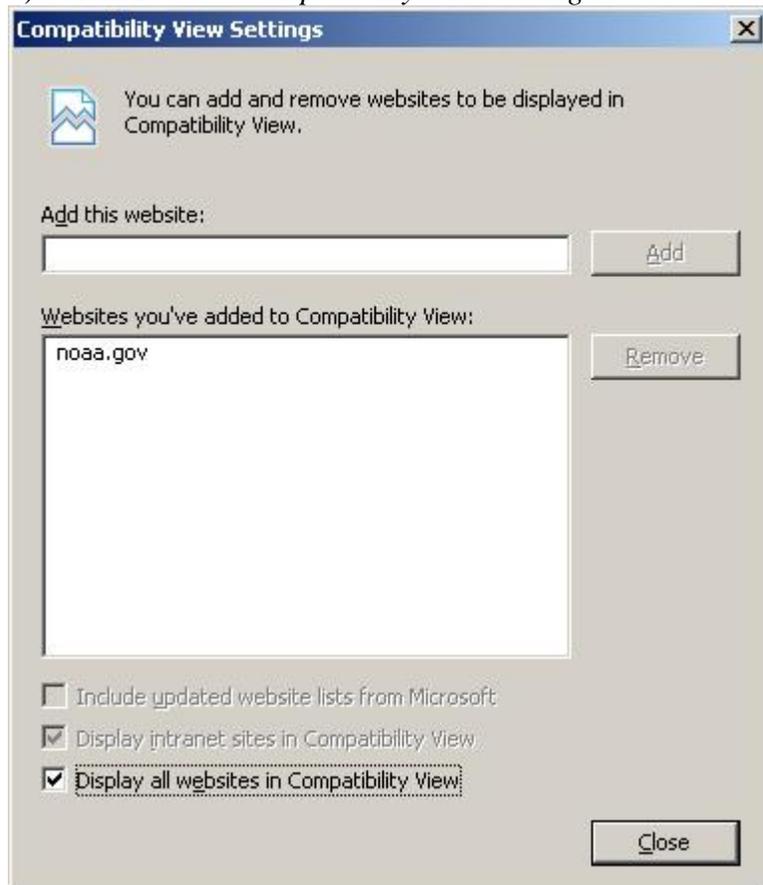

To implement Compatibility mode, do the following:

- 1) Close all open sessions of IE.
- 2) Open a session of IE 8

3) Click *Tools* > *Compatibility View*

4) Click *Tools > Compatibility View Settings*

5) Click *Display Intranet sites in Compatibility View*

6) Type *noaa.gov* in the *Websites you've added to Compatibility View*

7) Click *Display all websites in Compatibility View*

8) Click *Close*
